# GENERAL NOTES

The statistics presented in this publication are compiled from information submitted to Alberta Health by each general hospital, auxiliary hospital and nursing home.

Hospital operation and financial data, shown in Tables 1 to 12, are derived from the **Annual Return of Health Care Facilities – Hospitals – Part One and Two** for the year ended March 31, 1988. The data include all amendments and corrections submitted to the Department by individual hospitals on or before July 5, 1989. The financial data presented in Tables 10 to 12 are compiled and reported on an accrual basis. Tables 10, 11 and 12 contain audited operating expense data as certified and reported by the external auditor of the hospital. When interpreting the above data, reference should be made to the Glossary which contains selected definitions of terms used in the Annual Return.

Nursing home operation and patient data, shown in Tables 13 and 14, are derived from the **Annual Return of Nursing Homes** for the fiscal year 1987-88 and include all amendments and corrections submitted to the Department by individual nursing homes on or before October 16, 1989. The exception to this is column 1 of Table 13 which is obtained from the nursing home contracts.

The United Nurses of Alberta conducted a 19 day strike from January 25 to February 12, 1988 which affected the operations of a considerable number of general and auxiliary hospitals and some nursing homes in Alberta.

The statistical tables which follow provide detailed information on the operation and utilization of hospitals and nursing homes. In these tables, the facilities have been arranged in ascending order of approved bed complement within each facility group. An alphabetical listing for each type of facility can be found at the end of the supplement.

Note: All rates shown in the following tables have been rounded to one decimal place.
